

Bismillah ar-Rahman ar-Rahim

O People! Hasina Regime has resorted to the Policy of Lockdowns to cover her Irresponsibility and Corruption in the Health Sector

Come forward to resist these Deceitful Tactics!

- Hundreds of Covid-19 infected people are dying due to lack of oxygen and ICU facilities, because the Hasina regime, negligent about the people, did not take the necessary steps to develop the health sector in last one and half years; rather, they plundered thousands and thousands of crores of Taka in the name of buying medical equipment and vaccines
- To divert the discussion from their failure in the health sector, the government is routinely using the media to show that the people are not following the health guidelines and trying to justify their inhuman lockdowns
- On the one hand, repeated lockdowns are destroying the economy of the country - the people are struggling with their lives and livelihood, and some are even committing suicide failing to provide food for their children or extreme debts; on the other hand, the government has taken lockdown as a tool of suppression so that people cannot come out to the streets even to demand their basic rights and for protests

O sincere officers in military and law enforcement agencies, hungry and workless people coming out to streets for their livelihood are being arrested or fined, which is a definitely tyranny by this regime. Do not be part of this tyranny by obeying these inhuman instructions.

RasulAllah (saw) said, *“Whosoever of you sees an evil, let him change it with his hand; and if he is not able to do so, then [let him change it] with his tongue; and if he is not able to do so, then with his heart — and that is the weakest of faith.”* [Sahih Muslim]

O Muslims, these secular and capitalist rulers do politics only to serve the interest of themselves and a few capitalists, and to oppress people. So, come forward to remove this tyrannical rulers and reestablish the Khilafah Rashidah (rightly guided Caliphate), which will take the responsibility to fulfil the basic rights of its citizens irrespective of race, color and religion.

RasulAllah (saw) said, *“Indeed Imam (Khaleefah) is the guardian and he is responsible for his citizens”* [Bukhari/Muslim]
